SYED MOBIN
ARCHITECTS

Embracing Life through the art of
CREATIVE SPACES

SYED MOBIN has risen to become one of the well – respected **Architect of Central India** practicing through two decades.

His Architectural work and designs impeccably blends spaces and designs with elevations showcasing his passion for his work.

His passion for learning architecture and design started in his early college days where he was the **first one to learn 3D Software** to now winning accolades and awards. He was well-known in his college for making art installations out of scrap.

His dedication towards his work never went unnoticed…right from his college days when **his group had recipient of National Award HUDCO Trophy in NASA** to now where he has been the recipient of **ultra tech awards** quite a few times and also he was **Awarded with the International GABA Award** for his residential villa project which was made using reclaimed materials.

Though he has commission **100 plus Projects**. His projects have been published in several magazines.

He was one among the seven to **represent India at Lafarge Holcim International Conference held at Cairo, Egypt** where he got opportunity to learn from Pritzker Architecture Prize winning Architects like **Lord Norman Foster, Francis Kere, Anne locaton,** etc.

His take away from his journey of practice.

"There is nothing superior or inferior, good or bad, right or wrong unless it is built with S.M.A."

- **S**ustainable design
- **M**inute detailing
- **A**ddiction to strive for the best.
